

A superb villa refurbished in Granadella by the owners to an extremely high standard with cost not being a barrier to complete this villa with nothing but the best materials and fixture and fittings. The villa has 4 bedrooms and a possible 5th used as a library, 3 in the main villa and the 4th and possible 5th in the guest area. The villa has a large kitchen with all mod cons you would expect, a huge naya with dining and sitting areas and a extremely large lounge. The villa has a beautiful heated pool and lots of good space for social events with a large Balinese gazebo with covered roof, complimented by a bar area and BBQ. The villa has amazing countryside views and being south facing has the sun all year making this the perfect all year round villa.
