Jávea (Javea)

With the majestic Montgó mountain as the perfect backdrop, this villa with its traditional architecture and assorted roof angles, blends perfectly into the enchanting, Mediterranean landscape. The spacious rooms distributed between the main house and two separate casitas, are ideal for welcoming guests and relaxing days by the sparkling blue pool. The cosy design with a touch of finca feeling, the idyllic and skilfully designed exterior areas and the highly desirable south orientation to enjoy the light and sunshine of the more than three hundred sunny days a year that this privileged area of the northern Costa Blanca has to offer, are particularly popular among connoisseurs. The villa is framed by a private tennis court and by numerous fruit trees and embedded in a quiet residential area with international neighborhood. A highly individual and unusual floor-plan, the privacy offered by the exceptional plot size and the dream location serve to emphasize the distinction and refined class of this hidden paradise.
