Cami Font de la Mata (Gata de Gorgos)

This plot is close to the centre of Gata de Gorgos yet completely surrounded by nature. You will therefore find pure peace and only sounds of nature here. It has a total area of almost 3000 m2 and up to 100 m2 may be built on. There are currently 2 constructions on the plot. There is no water or electricity available. This need not be a problem as solar panels can be laid and a water tank can be installed. The last part of the road is not asphalted.
